MARCH 2020 HIGHLIGHTS

Notes:

March is perfect weather for landscapes. The warm mild weather is perfect for growth. Expect rapid growth of all plant material and turf. The weather is ideal for new landscape plantings.

Prune shrubs to control growth. Now is the best time to do any heavy pruning that may be necessary. March is a good time to prune citrus.

Fertilize shrubs, flowers and citrus to support new growth.

First part of March is the last chance to spray olives to prevent fruit from developing.

Spot spray any weeds that may appear in turf. Spray weeds in DG areas to keep them from getting out of control.

Monitor pests attracted to new growth on annual flowers and shrubs and treat if necessary.

Increase irrigation as the weather warms up.

*** Notes: For our customers, we continue to anticipate being at 125% of your water budget and will experience Tier 3 penalties to keep the turf and trees healthy. Please continue to forward your monthly water bill and detail to help us effectively track**
