

Are You Picking Up After Your Pet?

Besides being unsightly and smelly, animal waste can be hazardous to the health of our children who play in the community *and* to other pets. One of the most common forms of disease transmission between dogs is through fecal matter.

It is important to remember to immediately clean up after your pet. When walking your dog, take along a baggie with you to pick up waste with and then dispose of it properly. Also, when walking your dog in our community, remember that it must be leashed. Thank you for your cooperation!
