

San Lorenzo- StoneKastle Community Management

Fire Safety First has been contracted to perform the 5-year Fire Sprinkler Inspection. This is an internal inspection of your condo. We need to inspect all the fire sprinkler heads inside your unit per the Cal State Fire Marshall, NFPA 25, and the California Health & Safety Code, Title 19.

This is a required inspection, and you will need to be home during your slotted time frame. If you cannot be home during your time frame, please provide access through a trusted neighbor, friend, or family member. If you have a leased or rented unit, please notify your tenant of the schedule. If no one is home during your slotted timed inspection and Fire Safety First must return to inspect your home at another time, there will be an additional charge.

The inspection will take between 5-15 min. We will need access to all the rooms, closets, and garages. We may also need to look in the attic space if there is access inside your home.

If you would like our technicians to wear a mask or shoe covers when entering your home, please politely request that they do so. Our technicians will have shoe covers and masks on them, should you require them to wear them. If you do not feel comfortable with our technicians' opening doors, then please request that they follow you through your home while you open the doors for them.

Should you have any additional questions please reach out to your homeowner's association, or please see the additional frequently asked questions paper provided.

Thank you for allowing Fire Safety First the opportunity to provide you with service.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Kuhn".

Josh Kuhn, Senior Project Manager
