

Summit Park Jumper Use

In order to place a jumper in the Association's common area, the following must apply:

1. The Association must be named as an "additional insured" on a certificate of insurance from both the member (personal homeowner's insurance) using the jumper and the company providing the jumper. The Association is to be provided with copies of both certificates before the jumper can be placed on Association property.
2. There must be adult supervision at all times when the jumper is being used.
