

# VILLAS DE LAS FLORES

## NOVEMBER 2024

### FLOWERS

**Maintenance** – No maintenance is scheduled this month.

### TURF

**Mowing** – Mowing of Bermuda will continue to be at the height of 1” inch.

**Fertilization** – Fertilizer will be applied as needed.

**Herbicide** – Will be scheduled a week in advance. Notices will be posted throughout the property with more information.

### SHRUBS

**Focus pruning** – Bougainvilleas will be cut down on the corners to begin shaping them correctly and natural pruning will continue on maintenance route.

\*November is a good month for any pruning in the landscape. This is the last chance to reduce the size of any frost sensitive plants.

**Plant Replacement** – Replacements are scheduled to begin on November 25th.

### TREES

**Scheduled Trimming** – Tree replacements will begin on November 18<sup>th</sup>.

### HIGHLIGHTS

**Notes:** November is the last month with mild weather before there is a chance of frost. November continues the fall planting season and is a good time for most landscape tasks.
