Villas De Las Flores Club Special!!!!

As a resident of the Coachella Valley for over 35 years, I understand the importance of feeling secure in your home. As an affiliate of Personalized Property Management, I am acutely informed of security breaches within your community. I have experience with the need for home security and the consequences of not having it.

Personalized Security Services provides both full-time and part-time Valley residents with personalized protection and peace of mind. New advances in alarm system technology include controlling your system from your smart phone or computer. Email and text notifications sent directly to you. Cellular monitoring enables homes without an active phone line to be protected and many other convenient options. Because your HOA is already a customer of Personalized Property Management, I want to offer you some additional, value-added services, including:

- A free home inspection and customized security services quote
- Low monthly alarm monitoring fees
- Free conversions of most existing alarm systems
- No phone line needed
- Smart Phone and Computer access to your system

In addition for all new clients who sign up with Personalized Security Services we will monitor your home for the 1st three months for FREE.

Call us today at 760-325-3359 or email me at ksee@personalizedsecurityservices.com for more information or to schedule an in-home consultation!

Sincerely,

Kevin See
Senior Security Consultant
Personalized Security Services Inc.
